

## AI Source Integrity Field Guide

A compact reference guide for tracing, verifying, and attributing AI-assisted claims across seven source categories.

### Deliverables:

- 48-page guide
- Source classification matrix
- Citation repair worksheet
- 120-entry red-flag phrase glossary
- AI-output vs. primary-source decision tree

Audience: Researchers, consultants, graduate students, analysts, and policy teams using AI in evidence-critical writing.
